

Children Looked After Teams

This team would re-assess and case-manage all looked after children. The team would be responsible for:

- Looked after children beyond the 4th month
- Care leavers (see below)
- Some adoption work
- Rehabilitation until the 2nd review

Management of care leavers will take the form of long arm reviewing responsibilities to ensure that the local authority retains overall accountability and responsibility for its statutory function.

The service will continue to be provided by external providers.
