

Client Testimonial

Kickstart Scheme

Having exhausted all internal resources to attract suitable candidates in the Wisbech region and having previously worked with personnel from Synergy which much success, we decided to approach Synergy to undertake a Kickstart programme for us in this geographic region.

The team worked hard at attracting appropriate candidates and we had the largest ever attendance at an assessment centre we have ever experienced. After extensive assessments we successfully appointed 10 candidates to the role of Residential Childcare Workers with our organisation.

We would recommend the Kickstart programme to those who are struggling with attracting candidates in specific areas, Synergy are experienced in managing large scale recruitment and offer suitable and motivated candidates.

We were so pleased with the cost effective outcome of the programme that we have arranged for another Kickstart programme to take place in another region for our organisation.
